LAST EDITION OF THE MILLENNIUM

Fort Wayne Radio Club Christmas Party

The Fort Wayne Radio Club Christmas party is 6:30 P.M., December 15, 2000 at Good Shepherd United Methodist Church. It is a total carry, in so be sure to bring a dish to share, be it main dish, vegetable, salad, or dessert. At the spring banquet we had an over abundance of meatballs, so let's see if we can get a bigger assortment

for this occasion. The entertainment will be by the Major Chords a quartet from the Sweet Adelines. There will also be a \$5 gift exchange for those wishing to participate. Please designate if the gift is for a man or a woman and PLEASE put your name on it so we will know who to thank. Let's start the Christmas holiday season with a good turnout at this annual event.

Carole, WB9RUS

FWRC Auction Comming Jan. 19

The January auction should be open to all hams that care to come, even if they are not members of any club. If they want to sell, the FWRC gets 10 percent. If they buy, the FWRC gets 10 percent from the seller. Either way, the more people attending the auction the better.

The treasurer will be grateful for any volunteers to help keep track of the sales. We need to monitor the final bid price, the seller (to pay 90 percent to), and the buyer (to collect 100 percent from).

[NOTE: A copy of the auction form is included on pg. 10.]

President's Corner

Although December is one of the most joyous times of the year, we are starting this month on a note of sadness. Cliff Shreve, N9MKB, passed away on November 26th. An obituary is included with this issue of the Ham News. He will be missed by everyone that knew him, both on and off the air.

Also included with this issue is a preliminary calendar for FWRC activities for the coming year. We have tried to plan ahead in detail this year, but as you may suspect, nothing can be sealed in stone. Not all the programs for the meetings are determined yet, and although we have several good ideas that we are working on, we are open to any member suggestions or desires. Please e-mail or call myself or any board members with your ideas.

In the works for January are Code and Theory classes for anyone wanting to get their licenses or even to upgrade to General. Details are still being worked on for this venture, and anyone that is interested should contact FWRC vice president Tom Baker. We are also looking for volunteers to help with the teaching duties. All hams are welcome, not just FWRC members.

One notable change for the coming year is the February SkyWarn meeting. To maximize efficiency for the National Weather Service, we have discussed the possibility of having a joint meeting with ACARTS. In other words, both clubs will have their meetings at the same time and place.

Don't forget the Fort Wayne Radio Club's annual Christmas Banquet on December 15th at the Good Shepherd United Methodist Church at 6:30 pm. Remember that this is a

total carry in except for the refreshments. Entertainment will be provided by the Major Chords, a quartet. It promises to be a great time, so mark it on your calendar now! If you are a new member of the Fort Wayne Radio Club, don't be shy, come and meet the gang!

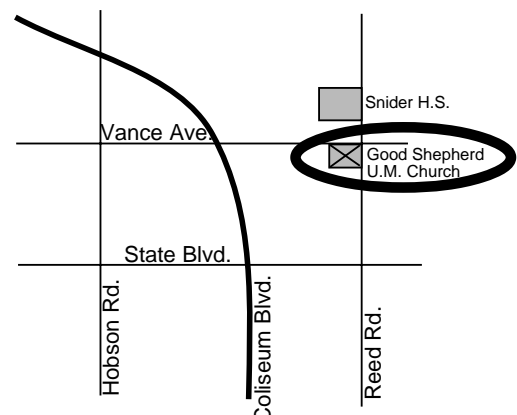

If Christmas is close, don't forget to start putting equipment aside for the January FWRC Auction. To be held on January 19, 2001, this is a popular event. If you get that new Yaesu or Ten-Tec rig as a present, then you can sell that vintage glow in the dark radio at the auction! Of course this event is open to everyone, not just FWRC members, so make it a date to attend!

73, Steve

FWRC November Meeting Minutes

17 November 2000

The November meeting of the Ft. Wayne Radio Club was held on 17 November 2000 at the Good Shepherd United Methodist Church. President Steve Nardin hosted the meeting. There were 8 attendees. (Many members were involved in support of the ACARTS Hamfest which commenced on 18 November).

The minutes from the October meeting were read and there were no corrections.

There was no Treasurer's report.

Carl Rittenhouse commented on the Foxhunt. The CY2000 Foxhunt season had completed with the November hunt. Plans are afoot for next years hunting season which will commence in the Spring. There will be a presentation on Foxhunting and a parking lot demo conducted at the April club meeting.

Carole Burke suggested that it may be possible for the club to participate in the WFWA-PBS Channel 39 Telethon in March. She was willing to inquire at WFWA if they would like the FWRC to volunteer their services. The members present thought that a good idea, so Carole will pursue.

Following the business meeting those present entered into a discussion of how they got into the hobby and talked about their favorite rigs. Several members brought those rigs to the meeting. (From the Secretary's point of view, this was a most enjoyable clambake).

Respectfully submitted

Al Burke, WB9SSE
Secretary, FWRC

Working The New Millennium With The Old

from *The ARRL Letter* – Dave Paperman, W5WP, worked the 100 entities required for the ARRL DXCC Millennium Award using a restored Hallicrafters "Hurricane" transceiver—the SR-2000 (of course!). He reports that his QSO #100 was with the FO0AAA DXpedition. "I decided to use the Hallicrafters partly as a tribute to the classic equipment of the previous millennium and as part of an ongoing demonstration of the ability of these venerable radios to 'hold their own' in the pileups of today," he writes. He said he got a lot of favorable reports on his audio "even before I mentioned the equipment I was using," he says. "My thanks to the League and the DXCC Desk for creating this award."

President's Message

I hope everyone had a good Thanksgiving. The 2000 Hamfest is now history. As soon as the results are tabulated a report will appear in the newsletter. I want to thank everyone who helped do the various tasks during the year. You made Jim's job a little easier. I also want to thank everyone who worked the weekend of the Hamfest.

At the Hamfest I talked with Steve Nardin, WB9ZIIY about this year's Skywarn training. Last year we had a joint meeting that was hosted by AC-ARTS. Steve offered to have FWRC host the meeting this year. I told him to go ahead and check into the details of setting up this year's training. We talked about doing it in February, since storm season starts in March.

Election 2000 for AC-ARTS is also history. We still have a manager position that is open. That position is activities. The person in this position arranges for the program and refreshments. We will accept a volunteer for this position. You will not

have to do this alone. You will get some help in setting things up. Is there something you would like to see as a program? Let me or any board member know. The program part of the meeting is your's, let us know what interests you. As always, everyone is welcome to attend board meetings. That's all for now.

73 Vic, KA9LTV

New North American 145 GHz Record Claimed

from *The ARRL Letter* – A new North American claimed record at 145 GHz was set November 6 when Brian Justin, WA1ZMS/4, and Geep Howell, WA4RTS/4, established two-way contact over a path of 34 km. Justin reports that the CW signals were weak but able to be copied. The transmitter power on each end was around 5 mW. ICOM R-7000 receivers were used for IFs. WA1ZMS was on the Blue Ridge Parkway in FM07fm. WA4RTS was in Lynchburg, Virginia, in FM07ji. "No receive margin was to be had on the WA4RTS end, so we reached the limit of what we can do for now with the exception of weather conditions," Justin said.—Brian Justin, WA4ZMS/4

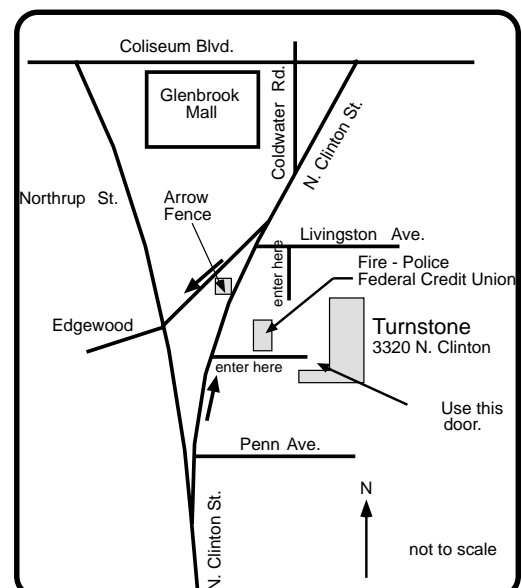

December Meeting Schedule

All meetings are at 7:30 p.m. at Turnstone unless otherwise noted.

Board Meeting: 12/12/00
All members are encouraged to attend.

Christmas Banquet: 12/2/00 6:00 p.m.
at Turnstone

Tech Committee: no meeting this month

ACARTS November Board Meeting Minutes

The ACARTS November board meeting was called to order by President Vic Berko, KA9LTV at 7:43 PM.

The first topic of discussion was the election for 2001 officers, and Don, WB8HQS, noted that we had people running for all but Activities Manager and Secretary. At that time Greg Carr, KB9LDU, volunteered to run for Secretary.

Don, WB8HQS, said he would send an email out to the membership about the upcoming meeting, noting the elections, hamfest wrap-up, and Adolph Wozniak's antenna program.

A lengthy discussion about the club station and antennas at Turnstone ensued, with Jim, KB9IH, noting that Turnstone has commented that if we don't get antennas up and the station on the air soon, they may reclaim the small corner of a room that we occupy with our cabinet. We noted that we were unable to do much until the Turnstone renovation was complete, and now it will have to be next spring or summer before we can even think about the tower again. A comment was made that we should try to at least get a HF vertical up in the near future to get the station operational.

We also had a discussion about permanently installing two coaxes at the Coliseum (between the Expo and the Exhibit hall) so we don't have to re-string them and take them down again each year. It was decided to talk to the Coliseum about it, and buy new cable and ties for next year, and then make the installation permanent.

The meeting was adjourned about 8:55 PM.

Submitted by Don Gagnon, WB8HQS

November ACARTS General Meeting Minutes

The ACARTS November general meeting was called to order by President Vic Berko, KA9LTV, at 7:47 PM. We began with self introductions around the room. There were 26 people in attendance.

Don, WB8HQS, announced we had flyers for the South Bend Hamfest being held on January 14th, and 2 free tickets. Since there were 3 people interested in the free tickets, a "raffle" was held, and Richard, KB9VAQ, and Lee, KB8WOS won them.

Don also made a comment on the battery packs being passed around. They were "donated" by one of the hamfest vendors as being new battery packs that had been on his

shelf for several years, and he didn't know how good they were, so he gave them away. Several packs for several models were there, and free for who ever wanted one. Don noted that one he had taken for his older HT appeared to charge normally, and seemed to work fine. At the end of the meeting the following packs remained: Yaesu FNB 26, ICOM CM 142 M, ICOM BP 196 M and a CM 140 case for alkaline cells (unknown brand name). If anyone wants these, please contact Don.

John, N9IYI talked about the Christmas party. It will be at Turnstone on Saturday the 2nd, and will include a gift exchange.

Jim, KB9IH, gave a preliminary report on the hamfest, although most of the data on the event is still being collected. It appears that attendance was down about 700 (approximately 11% from last years total), even though tables sales were still good (we sold out). He also discussed the "mis-haps" with vendors and their vehicles that ended up costing us \$200 and maybe more yet to come. A full review of this years hamfest should be in the January issue of the newsletter.

Jim also drew the names of the 10 \$50 workers prizes, which went to KD9SX, KB9IQW, KF9YP, KB9WSI, N0WRM, N9DOQ, K9CR, N9PDX, N9JYP and KZ9R.

We then opened the floor to nominations for 2001 officers, and after receiving none, it was motioned by Greg, KB9LDU and seconded by Vic, KA9LTV to close nominations. The motion was approved by voice vote. Since we had no more than one person running for each office, it was motioned by Don, WB8HQS and seconded by Dave, W9LKH to accept the presented 2001 slate of officers by acclamation. The motion was approved by voice vote. The new slate of officers for 2001 is as follows:

President:	Vic Berko, KA9LTV
Vice-President:	Dave Lindquist, W9LKH
Treasurer:	Howard Pletcher, N9ADS
Secretary:	Greg Carr, KB9LDU
Activities Manager:	OPEN
Station Manager:	Doug Jones, N9NNT
Emergency Prep:	Richard Andrew, KB9VAQ
Communications Manager: ..	Vic Guess, WB9UZA
Fundraising Manager:	Jim Boyer, KB9IH

We then broke for refreshments, and closed with a program by Adolph Wozniak, WA9WTJ, on antenna impedance measurements with the Smith chart.

The meeting adjourned about 9:15 PM.

Submitted by Don Gagnon, WB8HQS

Clifford Stanley Shrieve II

1952 -2000 Silent Key

The parents, Clifford and Mary Shrieve natives of Fort Wayne In brought Cliff into this world in 1952. Cliff was a normal happy child, however around the age of 10 teachers complained that Cliff needed too many trips to the bathroom.

Concerned by this revelation Mary took him to the doctor, this is when the family learned he had sugar diabetes.

Cliff loved the lake while growing up. His Parents had a cottage by the fish hatchery on Lake Wawasee. Cliff remarked to me shortly before his death, the happiest times of his life was during his visits to the lake. In his teen years he found an interest in auto and truck mechanics. He once bought some old trucks and when his father ask him what his plans were, he told him that he was going to fix

them up and sell them. Cliff did in fact fix and sell them, making a handsome profit to boot. This was the basis for his first job at North American Van lines. As a parts buyer he traveled about the U.S. frequently. Cliff was married for a short while and had a son, Jeff. He later married

again in 1983 to his present wife Kim. It was during this time that his eyesight began to fail. A trip to Mayo Clinic confirmed that Cliff's vision was failing due to the diabetes. Cliff decided to learn Braille at the League for the Blind. It was here that Cliff held his first office as a board member. Cliff sight had deteriorated so much that he was assigned a seeing eye dog, which he became very attached to. Cliff had the dog many years before it died.

His dimming vision was proving to be a difficult adjustment, his mother said just playing cards or working on his autos was almost impossible. So frustrated, Cliff continued to look for something that would give him a feeling of accomplishment. This is when he discovered Amateur radio. Cliff attended The Fort Wayne Radio Club's classes in the spring of 1991, and Bill Kindred (WA9RAP) said he passed his Novice test with no problems. On Janu-

ary of 1992 he passed his General class test. As Cliff took to the air waves of Ham radio he quickly discovered many new friends. His quick wit and warmth were an immediate hit with all the Hams he talked with. Feeling a need to serve the Community he began to offer his services to the Fort Wayne Radio Club. He was chairman of our Hamfest in 1995, he was President in 1994 and 1996 and a board member for three more years. Who can ever forget Cliff as Santa at the Radio Clubs Christmas banquet strolling onto the main floor fully costumed, doing the curly shuffle. His skit using Dino, Carl and myself all shaking a set of bells and singing a rowdy version of "My Ding-a Ling" still makes me smile. He loved gathering the Kids around him listening to their Christmas wishes. Cliff also had some of the most memorable Club meetings. The visit to Parkview Hospital and seeing the operations of the Good Samaritan Helicopter and the Visit to the Weather Bureau are good examples. Of course no one will forget his mystery guest "the Tomb Stone Lady" with her unique stores about the deceased and the curious epitaphs on their head stones. It was only after her presentation by this wonderful Lady that we discovered that it was Cliff's very own Mother.

He later set up his Ham shack for amateur television. From there he produced many unique funny, and entertaining videos. Again Cliff found a way to volunteer his services to the community. In his Ham shack set up to look like the North pole Cliff would play Santa to the confined residents of the State Mental Hospital. By using Amateur Television, it appeared Santa was broadcasting live from the North Pole. It's hard to express here the immense goodness we felt helping those often forgotten souls to enjoy a visit with "Santa". Cliff was a great giver and he always gave 100 percent. Of course his greatest gift of all was of himself.

Jim H. Pliett, K9OMA

November Foxhunt Highlights

November foxhunters: L to R Jim KB9DOT, Vic N9GK, Clint KB9LOF, Anne KA9YYI, Kim's sister, Jim K9OMA, Kim KB9DOS, and Jim KB9NRA.

Each monthly foxhunt last year was a totally different challenge, you never know what to expect, but hope you are prepared with enough experience and equipment to be successful. You start wondering, is my equipment going to all work, will I be dealing with reflections, will it rain, will the fox be high or low power, and do I have enough attenuation, or will the signal be horizontal or vertically polarized, just where in all of Allen Co. will the fox be?? This is the feeling that gets into your blood as the 1st of each month nears. In the year 2001 we would like to increase the participation in foxhunting, so contact me if you are interested and we can discuss equipment etc. Also, one of the upcoming club programs will be dedicated to a hands-on foxhunt and handling demonstration. Make it a point to join us, and realize the fun and learning that takes place. Are you up to the challenge?? Carl N9NRO

It's Alive! Phase 3D Is Now AO-40

from *The ARRL Letter* – Alive and well and in orbit around Earth, the satellite known for the past decade as “Phase 3D” has a new name. AMSAT-NA Board Chairman Bill Tynan, W3XO, this week announced that Phase 3D now will be known as AMSAT-OSCAR 40, or AO-40.

“We have been calling it Phase 3D for far too long,” Tynan said. “Henceforth it will take its place in the long line of OSCARs, satellites built by the Amateur Radio community for the Amateur Radio community throughout the world.”

Tynan said he got the official go-ahead from Phase 3D Project Leader Karl Meinzer, DJ4ZC, to assign an OSCAR number. It's been 40 years since the first OSCAR satellite launched. AMSAT-OSCAR 40 was dedicated to the memory of one of

its principal builders, Werner Haas, DJ5KQ, and operates under the call sign DP0WH. Haas died earlier this year. A plaque aboard AO-40 is dedicated to his memory.

Tynan, whose tenure as AMSAT-NA President covered the early years of the Phase 3D project, was overjoyed to see the satellite finally in orbit. “Congratulations and thanks to all who participated in any way to this wonderful achievement,” he said.

Following a one-day postponement, Phase 3D was successfully launched November 16 at 0107 UTC and placed into a geostationary transfer orbit, from which it will be nudged into its final high elliptical orbit. When the Ariane 5 launcher

Continued from page 7

successfully deployed Phase 3D at 0153 UTC, cheers erupted from the AMSAT team monitoring the flight's progress in the Arianespace control room. The satellite is not expected to be ready for general use for about nine months.

"It was a textbook launch," said Phase 3D Mission Director and AMSAT-DL Executive Vice President Peter Guelzow, DB2OS. Guelzow, who's filling in for Phase 3D Project Leader Karl Meinzer, DJ4ZC, said the satellite appears to be in excellent health. A "general beacon" was transmitting on approximately 435.450 MHz. The AO-40 PSK beacon has been monitored on or about 145.898 MHz—slightly different from the expected frequency.

This week's Phase 3D launch culminated a decade of planning, design, construction and testing as well as an ambitious fundraising campaign. The ARRL was among the major contributors to the Phase 3D project.

Newly elected AMSAT-NA President Robin Haighton, VE3FRH, hailed the news of the launch. "It expands the capabilities of radio amateurs to work with higher frequencies and develop advanced communication techniques," he said. "Once more, Amateur Radio operators will be at the leading edge of experimentation in communications."

The satellite now is in orbit some 585 miles above Earth at the closest point. Phase 3D's final elliptical orbital configuration will put the satellite some 2500 miles away from Earth at its nearest point, and some 29,500 miles at its farthest.

At 630 kg (1380 lbs) and some 20 feet across when the solar panels are deployed, Phase 3D is the largest Amateur Radio satellite ever put into space. Three other satellites, the giant PanAmSat PAS-1R communications satellite and the smaller STRV-1C and 1D mini-satellites, joined AMSAT Phase 3D—now AO 40—for the ride.

For more information, visit the AMSAT-NA Web site, <http://www.amsat.org>.

Web Site Design Article in January QST

Watch for an article on putting together a web site for your ham club, which highlights the ACARTS web site and was written by Don Gagnon, WB8HQS, in the January 2001 QST.

Fort Wayne Radio Club January Equipment Auction

Auction Procedure:

- 1) Sign in for an auction participant number. A participant number is required for either buying or selling. If you are just watching, no participant number is needed.
- 2) If you are selling, please provide the treasurer with this form filled out with a list of the items (or group of items) that you are selling, one line per item/group to be auctioned. You may also use a copy of this record form to keep track of your purchases and sales. Remember to mark the item with a minimum bid if there is one, otherwise it will be auctioned for whatever it brings as bids.
- 3) Buyers should add up the total of their purchases, and pay that amount to the treasurer. Please pay before removing your purchases. All purchases must be removed on the night of the auction. Sellers should add up the total of their sales, deduct 10% (multiply by 0.1 and subtract from the total), and collect that amount from the treasurer. Separate price columns are provided in case you are both buying and selling.

Buyer #	(Buy Price)	Item Description	Seller #	(Sell Price)
1	100	Item 1	2	120
3	150	Item 2	4	180
5	200	Item 3	6	220
